

## Final Dissemination Event

15 March 2018

Fondation Universitaire / Brussels

- 10.00-10.05**      **Opening**  
Gereon Meyer & Konstantin Konrad, *VDI/VDE Innovation + Technik*
- Welcoming remarks**  
Blagovesta Cholova, *DG Transport, European Commission*
- 10.05-10.30**      **Introduction to the SCORE project & SCOREBOARD**  
Konstantin Konrad, *VDI/VDE Innovation + Technik*
- 10.30-12.45**      **Spotlights on the transport manufacturing industry**
- 10.30-11.00      Spotlight on the aviation industry  
Pavan Addepalli, *Cranfield University*  
Gerardo Pagalday, *IK4 Research Alliance*
- 11.00-11.30      Spotlight on the rail/rolling stock industry  
Andrea Diaz, *Railenium*  
Michele Tozzi, *Union Internationale des Transports Publics*
- 11.30-11.45      *Coffee break*
- 11.45-12.15      Spotlight on the automotive industry  
Johanna Ludvigsen, *Transportøkonomisk Institutt*  
Leo Wangler, *VDI/VDE Innovation + Technik*
- 12.15-12.45      Spotlight on the maritime industry  
Holger Kramer, *Institute of Shipping Economics and Logistics*  
Andrzej Montwill, *Maritime University of Szczecin*
- 12.45-13.45**      **Lunch break**
- 13.45-14.30**      **Results of the expert survey & policy recommendations**  
Johanna Ludvigsen, *Transportøkonomisk Institutt*  
Sebastian Stagl, *VDI/VDE Innovation + Technik*
- 14.30-14.45**      **Coffee break**
- 14.45-15.45**      **Panel discussion with European initiatives & projects**
- Riccardo Groppo, *WG Chair Transport of EPoSS*
  - Silvia de la Mazza, *Coordinator of the I4MS initiative*
  - Harald Pötter, *WG Chair Manufacturing & Robotics of EPoSS*
  - Gereon Meyer, *Coordinator of Mobility4EU and SCOUT*
- 15.45              **Wrap-Up & Conclusions**
- Get together & open discussion

### **Spotlights on the transport manufacturing industry**

The goal of this session is to communicate and discuss the main findings for each industry sector. Within various presentations an overview of the main findings for the current status as well as the future perspective of the respective industry sector is given.

Following the general approach within the project, the presentations will be held in tandems of two experts of the project's consortium, such that both a general overview as well as a specific topic is covered.

*Format: Presentation / plenary discussion*

### **Results of the expert survey & policy recommendation**

In this session participants are given an insight into the results of the expert survey carried out within the project. The survey's results reflect various industry experts' opinions on how progress in research and development, new innovative technologies and future demand changes in view of forthcoming geopolitical and geo-economic developments and to what extent risks will affect the global competitive position of the European transport manufacturing industry. In a second step policy recommendations identified by the SCORE project will be presented and discussed with the audience.

*Format: Participatory / interactive*

### **Panel discussion with European initiatives & projects**

The goal of the panel discussion is to further explore conclusions derived within the SCORE project with participants in order to stimulate further discussions about required counter measures and initiatives to secure the future competitiveness of the European transport manufacturing industry.

*Format: Participatory / interactive*

### **Interactive SCOREBOARD**

In order for participants to get the chance to use the SCOREBOARD and further discuss the project's findings two computer screens/laptops are available during the entire event.
